

High Pressure Misting Equipment

ICE CUBE

The ICE CUBE is exclusively manufactured by Pressure Systems-MistAir, and designed with reliability and quality, and a 6-Year Warranty.

Our unique non-metallic 'catch box' aids in properly handling hydrostatic flow in the system, aids in reducing noise.

Our efficient industrial grade high torque motor provides quiet and longer service life, built to last.

The composite platform never rusts, runs quieter, minimalizes harmonics and vibration.

High performance industrial grade pump, runs under-speed to assure longevity, reliability and maximum performance.

High Pressure Misting Equipment

MistAirs 'perfect plume' allows a consistent and even coverage. This eliminates 'hot spots' and provides consistent cooling.

The isolated mounting brackets have a plastic insert buffer which eliminates rattles or vibration.

Our durable ceramic nozzles, provides consistent performance with a longer service life. This eliminates frequent replacement and yielding lowering total cost of ownership.
